

Product Design

TransferRite Ultra 792U is a heavyweight moisture resistant saturated paper backing with superior adhesive technology designed for use in applications where dimensional stability, humidity resistance or long term storage stability is required. Offers consistent adhesion to exposed liner.

Application

TransferRite Ultra 792U is suggested for graphics and parts that must be rolled and shipped, conform over irregular surfaces, and require long term storage. 792U can also be used for conventional 4 color process printed graphics and parts and fine line striping.

Performance Features

- ☑ Ultra adhesive to liner technology resulting in consistent adhesion to exposed liner
- ☑ Heavyweight paper backing with dimensional stability and resistance to humidity
- ☑ Smooth lamination, trouble-free stacking and storage of finished products

Physical Properties	Values
Color	White
Nominal Thickness	5.4(mils)/.137(mm)
Peel Adhesion @90°	7(oz./in.)/195(g/25mm)
Tensile Strength	21(lb./in.)
Elongation	14%

All product properties are measured in accordance with Pressure Sensitive Tape Council and/or ASTM test methods. The physical properties listed above are typical values and are not to be constructed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for his intended use. American Bilrite assumes no liability for claims beyond the replacement value of our product proved to be defective.
